

# MUSIC ENRICHMENT

*PLAY! Music Enrichment offers PRIVATE piano lessons where children learn to read, and write music, and play the piano. Private music lessons are taught on a one-to-one basis. These enable the teacher to individually assess all aspects of a student's progress and to adjust teaching methods according to the student's abilities and achievements. The length of the lesson depends on the student's age and level, and will vary between 30 minutes to one hour, once or more per week.*

*We will organize regular recitals that will provide the students with the perfect opportunity to enhance their performance skills in front of an audience. This Music Enrichment is a highly engaging way to challenge your little musician.*
